

RECLAIMING LIVES LOST

I was diagnosed with paranoid schizophrenia in 1995. It was hard for me to think clearly or interact with people. I would hear voices that would scare me. For ten years I lived in shelters, hospitals or prison, going nowhere.

In 2005 I found BRC and my life began to change. I've been sober now for three years. And I've learned to live with my disease. I went back to school, got my GED, and now I'm thinking I might go to college. One day I'd like to come back and work for BRC, helping others like me realize they can have a life.

RECLAIMING LIVES LOST

I started using drugs and alcohol as a teenager. Because of my poor choices, I lost my family and nearly lost my life. I tried to help myself, but nothing I tried worked.

I came to BRC with nothing but hope. But BRC believed in me, and that made all the difference. Today I'm 50 years old. I've had my sobriety and my own place for over three years. And a job that pays the rent. My daughter's all grown now, but she's forgiven me, and given me the greatest gift...a grandson. I have my life back, and it couldn't be better.
